**Thomasina Carlyle**  
Carlyle Transformations

Dear Thomasina,

I am writing you this letter in recognition for the great work realized in relation to the ASSITEJ Magazine 2016.

I would like to sincerely thank you for your professional services and good performance towards the realization of this publication. In particular, the two stages of the process in which your experience was much appreciated.

First, your pagination plan that was a very professional and helpful way for the layout draft and gave very pleasing results and second, the coordination and communication you had with the members of the ASSITEJ Publications group.

Working with people from different countries, and follow up the process via the internet, are not easy tasks.

Many thanks again for your professional work and kind collaboration.

Sincerely,

Marisa Giménez Cacho  
*Secretary General of ASSITEJ*
